Your Printing

» » and low prices

If you buy a cheap pair of shoes you never expect them to last as long as a good pair. You know when you take them that they cannot possibly give you the same satisfaction. And so it is with printing. There was a time when buyers all too often let the price of the job govern all other consideration. Of late, though, a distinctly different note is apparent as more and more users of printed matter are coming to realize that they cannot get more than they pay for. It is not how many booklets for a dollar, but how many dollars worth of returns you get from those booklets.

Profitable Printing is never found on the bargain counter.

REMEMBER » » Good printing costs only a little more than the other kind

The kind of printed matter that makes a good impression need not be expensive. When you send out a piece of sales literature you hope that people will think, "Well, well, here's a company that must be a pretty good outfit". If it is well done that's exactly what will happen. If it is a cheap job . . and the word "cheap" has just one meaning, after all . . then you're lucky to make any impression at all. The well-dressed, spick and span salesman gets a hearing: the unkempt one gets the air. We can show you how to make real "salesmen" out of your printed messages of every kind. Give us a call.
